ZAMORI SHOWER TRAYS

QUALITY SPECIFICATIONS

- Anti-Slip - The Zamori anti-slip option features the highest possible anti-slip rating. The anti-slip surface is embedded into the tray material during the manufacturing process. This gives a high quality look and feel compared to most other anti-slip trays, where the anti-slip surface is applied after production.
- Antibacterial - All Zamori trays are impregnated with a bacteria and mould lighting “Zemoic” agent. The antibacterial property of Zamori trays means increased hygiene and easier cleaning.
- Patent Re-reinforcement - Zamori trays are acrylic capped and feature a patented steel reinforcement frame within the tray. This ensures strength, rigidity and a lifetime of use.

Shower Tray Legset & Panel Kits

If you are unable to run your waste pipe under the floor, Zamori offer legsets and panels to allow you to raise the tray up by 100mm. To establish which legset and panel kit is suitable for your chosen tray, refer to the letters and number in brackets against each tray. (N/A) means there is no legset and panel kit available for this tray.

REQUIRED FOR ALL UNDERFLOOR HEATING MATS AND CABLE MEMBRANE

Combining underfloor heating and antifracture mat, this brilliant product from Redroom could save you significant money and time in fitting.

It really is as easy as 1,2,3.

Step 1

Redroom decoupling membrane goes down on the floor.

Step 2

Underfloor heating wire is spaced out within the guides on the membrane.

Step 3

It's now ready for tiling and as you would expect the membrane gives ultimate antifracture protection against tiles cracking that may occur due to settling and movement of the substrate underneath.
